

# Goods-to-Person Workstation

---

## EXECUTIVE SUMMARY

The Goods-to-Person Workstation was designed to complement a goods-to-person storage/retrieval system. The workstation has 6-8 positions for orders to be filled. Each position has a takeaway transfer that conveys the completed case to the adjacent discharge conveyor and brings the next case to fill the position. It was designed with small cases in mind and has rollers and transfer belts on 3" centers.

## OVERVIEW
