

BASTIAN SOLUTIONS PRESENTS

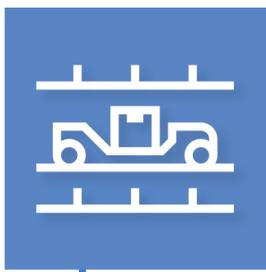

GOODS TO PERSON SOLUTIONS

GTP or Goods to Person (noun): a modernized method or style of order fulfillment that stores and retrieves merchandise and/or assists in the picking process and delivery to a staging area for packing and dispatch.

GRID-BASED STORAGE

- High-density cube design
- Ideal for tight spaces
- Bins, robots, pick interfaces
- Easily adapts to changing requirements

SHUTTLE & RACKING

- Can move across levels, aisles
- Shuttles, racking
- Totes, trays, cartons
- Manufacturing, buffering, delivery products

AISLE-BASED SOLUTION

- Maximize overhead space, narrow footprint, secure enclosures
- Aisle-based equipment, static racks or shelves, various load-handling devices
- Totes or bins
- SKUs with mid-range activity

AGVS & AMRS

- Dynamic storage, integrates with existing infrastructure
- Shelving, AMRs
- Cartons, boxes or bins
- Inbound receiving, storage, outbound order picking

INTEGRATED PICKING SYSTEMS

Pick to Light & Software

- Create productive, ergonomic and accurate workstations

AI-Powered Piece Picking Robots

- 24/7 lights out operation
- Accelerate new SKU integration
- Scalable and flexible for future operations

FLEXIBILITY, COST OF EXPANSION

Most Flexible To Least

PONDER POINTS

How much automation is just enough? As a general rule, automation should simplify and maximize optimal processes.

BENEFITS

- Dynamic solution that keeps up with market changes
- Physical space constraints
- Scalable with no operation interruption
- Energy efficient
- Lights out solutions
- Ergonomic workstations

IMPACT

- Adjust to labor availability
- Increase efficiency and accuracy
- Improve labor ergonomics and safety
- Eliminate travel time
- Faster ROI

CONSIDERATION

- Facility slab thickness
- Facility configuration and available space
- Product velocity: speed of picking, fast-moving SKUs, kitting storage
