

C.F. Roark Welding & Engineering

Roark Improves Warehousing with Muratec AS/RS Crane

Key Technologies:

- Muratec ASRS
- Exacta WMS
- Light Curtain Height Check

Business Challenges:

- Create a more organized fabrication shop
- Increase efficiency in storage capabilities
- Gain better visibility of tools and dies

Results:

- Tools and dies stored in a single, ASRS lane
- Each of the 60 pallet positions are easily accessible through one station
- Increase in overall organization of Roark's fabrication shop
- Improved productivity and cost savings due to organization and floor space savings
- Increased workflow through decrease of forklift traffic
